## PROFESSIONAL PROFILE

Web Developer in training with a technical background in web development and systems support. I have experience in academic and technical projects using technologies such as HTML, CSS, JavaScript, PHP, Laravel, and MySQL. I am a responsible, organized, and proactive person with the ability to learn and adapt to new technologies.

## COMPETENCIES AND ACHIEVEMENTS

**WorldSkills Costa Rica — National Competition** **sep 2025**

**Silver Medal — Web Technologies**

Participated in the national technical skills competition in the Web Technologies category, where I obtained a silver medal. During the competition, I developed web solutions according to technical requirements and established criteria, solving development tasks under time constraints while applying knowledge of HTML, CSS, JavaScript, and web development.

**WorldSkills Shanghai 2026 — International Competition** **sep 2026**

Participated as a competitor representing Costa Rica at WorldSkills Shanghai 2026 in the Web Development category. The competition involved solving technical challenges and developing web solutions under time constraints, applying knowledge of frontend, backend, databases, APIs, and various web development technologies.

## EDUCATION

**Colegio Técnico Profesional San Pablo de León Cortés** **2017-2023**

Technical Degree in Communication Networks and Operating Systems Configuration and Support
High School Diploma

**Instituto Nacional de Aprendizaje (INA)** **2024-2025**

Web Development

Technical training focused on web development, with knowledge of HTML, CSS, JavaScript, PHP, databases, and web application development.

**Instituto Nacional de Aprendizaje (INA)** **2026**

English

Training in the English language focused on developing comprehension and communication skills in academic and professional contexts.

## WORK EXPERIENCE

**Internship— CompuSanPablo** **2022**

Practical experience in technical support, assisting with needs related to computer equipment and information systems. During the internship, I developed skills in troubleshooting, equipment maintenance, user support, and the application of technical knowledge in a professional environment.

**Work Practice — DISNA** **2023**

Participated in a work practice focused on gaining experience in a professional environment, strengthening skills in organization, responsibility, teamwork, and adapting to workplace processes and requirements.

## COURSES AND TRAINING

### Cisco Networking Academy

Additional training in information technology and cybersecurity through courses in Internet of Things (IoT), Introduction to Cybersecurity, Cybersecurity Essentials, Basic Python, CCNA 1, CCNA 2, CCNA 3, CyberOps Associate, NDG Linux Essentials, and IT Essentials.

### Omar Dengo Foundation

Training in Entrepreneurship and Innovation and Technical Support, strengthening technical knowledge and skills for project development.

### Additional Training

Training in Cybersecurity, Structured Cabling, Soft Skills, and Digital Signature.

## TECHNICAL SKILLS

### Web Development

HTML, CSS, JavaScript, PHP, and Laravel. Development of web interfaces, responsive websites, and web applications based on specific requirements.

### Databases

MySQL and SQL. Creation, querying, and management of databases for web applications.

### Backend y APIs

Development of server-side functionality, database integration, and consumption of REST APIs.

### Version Control

Git and GitHub for project management, version control, and collaboration during development.

### Technical Support

Configuración y soporte de equipos informáticos, sistemas operativos y resolución de problemas técnicos.

### Backend y APIs

Computer equipment configuration and technical support, operating systems, and troubleshooting.

### Development Tools

Visual Studio Code, XAMPP, and Docker.
